

De Le Roi

PRESENTATION

De Le Roi

Stress, unhealthy diet and insufficient exercise accelerate skin ageing processes, cause wrinkles, cellulite and many other inconveniences you experience as a result. When skin is exposed to stress and pollution, its energy flow is reduced and so certain areas get affected by energy blocks.

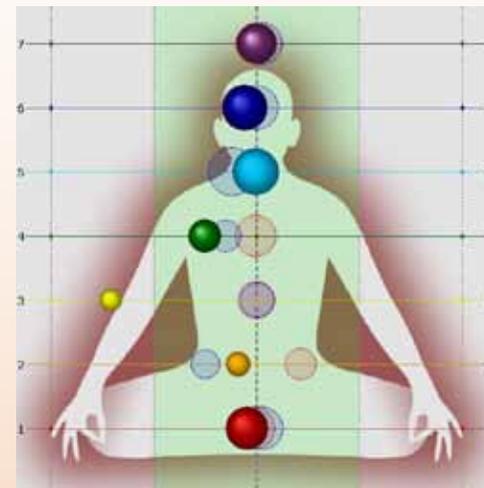

De Le Roi products restore skin energy and clear energy blocks and superannuated energy. The basic principle is the transference of high energy and energy information from the cream onto your skin. The energy information is put into the cream by Sandi Dolinar, who has been doing energy work for 14 years. He also shares part of his spiritual gifts with people through meditation classes he offers. Every week, 400 people participate in his free-of-charge meditation classes in Kranj. Sandi's spiritual abilities have been validated by scientific proofs which verify the incredible influence of his energy over matter.

De Le Roi

The first image represents the influence on the structure of water. On the left is a photograph of water before alterations, and on the right is a predetermined rearrangement of minerals in such a way that a hole is formed in the middle.

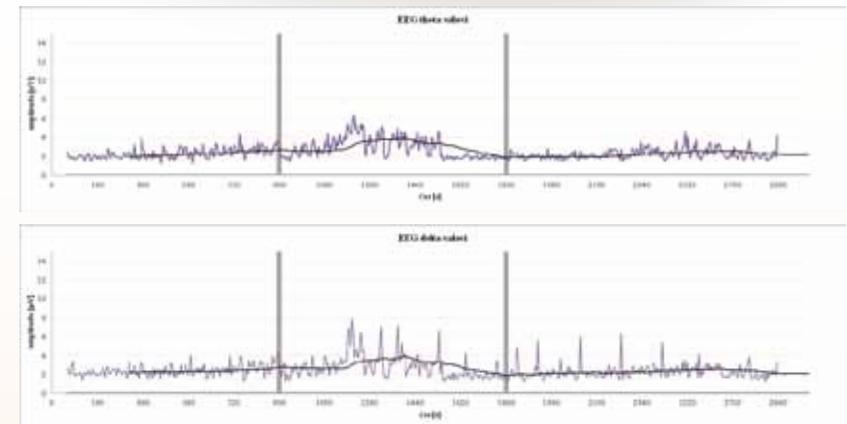

The second image demonstrates Sandi's ability to change the position of his chakras during his energy activity.

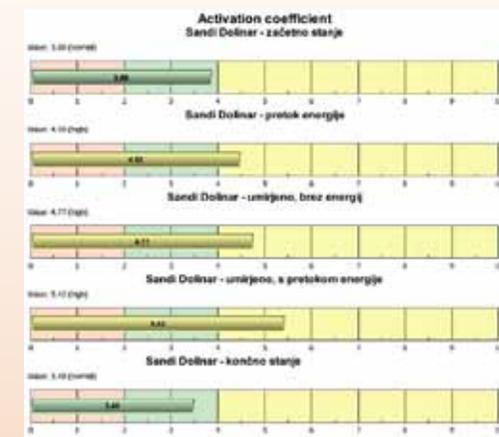

De Le Roi

The third image is a depiction of energy work on third persons. EEG measurements of brain activity during Sandi's energy work show increased theta and delta brainwave activity in the middle part of the graph.

The fourth image shows changes of the activation coefficient during energy activity.

De Le Roi

The basis for the products is a quality, dermatologically tested base cream, which transfers high energy and energy information onto the skin. After the base cream has been produced, Sandi first purifies its energy through the flow of his thoughts and spiritual energies, so the cream can receive and maintain the purity of information. Then he adds a record of high pure energy to the cream and energetically informs every water molecule which is part of the base cream. The information is activated on contact with the skin, informing it how to function optimally and providing it with energy support.

The first time you apply the De Le Roi cream, the energy of your skin is immediately raised. The second part of the process starts when the skin's energy is high enough, which normally happens a day or two after the first application of the cream. At that point the energy information contained in the cream becomes active, and is activated upon contact with the high and pure energy of the skin. The information regulates and enables optimum skin regeneration, helps tone up and improve skin appearance and texture. With each application of the cream you contribute to better-looking skin. Apply the cream twice daily, which is optimal for high skin energy to be maintained for a longer period of time.

De Le Roi

De Le Roi anti-age and anti-wrinkle face cream is designed for women as well as men. High level of energy and energy information not only help speed up revitalization and tone up your skin, but also enable younger-looking skin and minimize lines and wrinkles. You will feel more beautiful and younger, which will also boost your self-confidence.

De Le Roi

De Le Roi anti-cellulite cream improves skin appearance on thigh and buttock areas affected by cellulite. In the first part of the process the cream increases the flow and purity of energy and eliminates old energy. In the second part of the process it reduces the level of cellulite, improves skin micro-circulation and appearance, and helps smooth your skin. With a more beautiful figure, your self-confidence and overall well-being will improve dramatically.

De Le Roi

Find your path in a well-ordered life, healthy diet and healthy way of thinking, and De Le Roi products will contribute their share on the path to your perfection.

Both De Le Roi creams provide outstanding results over a very short period of time. The first to have tested the products have shared their experiences:

De Le Roi

I'm not one of those who like to boast and emphasize all the good things that have happened in their life. For me, actions have always spoken louder than any words. Even though my gratitude is expressed in a quiet way, it is nevertheless deep and sincere. I started using the De Le Roi anti-wrinkle cream with complete trust in Sandi and his sincere and selfless help to all of us who are willing to accept it. There was not a shred of doubt in me that it wouldn't work as presented. Even after the first application I had a feeling something was different. Not only were the wrinkles reduced, but my facial expression had changed somehow as well. It was becoming different, more beautiful, because the cream had given it a new kind of energy. Being too critical of myself, others have noticed the difference more than me. It was really pleasant at our meetings when I was listening to comments about how the cream was working miracles on me. I've also been getting a lot of questions from the people around me about what I was doing with myself lately. So the change must be so obvious that it's noticed by others as well. With every such comment and with each look in the mirror I said... thank you, Sandi. I said it quietly, but I think loudly enough for you to hear me. Andreja

At 62, the skin on my face was weather-beaten, mainly because I hadn't been using any skin care products for years. By using the De Le Roi cream, the skin on my face has been REJUVENATED. When I apply the cream, my mood changes and I become positively radiant. I'm very grateful for receiving, among other things, also this precious gift from Sandi. Thank you, Dragica

De Le Roi

I can stress that it is a very pleasant feeling when you feel your skin becoming younger, softer, and suppler. I have achieved that through meditation classes with Sandi, programmed water, and have benefited most from the De Le Roi cream. But above all I'm delighted that my skin is no longer as dry as it was as a result of my thyroid problems. Looking in the mirror in the morning is very comforting. Erika

The effects the De Le Roi anti-age cream has had on me are that my face has started glowing and the shade of my complexion has changed. Wrinkles around my eyes have disappeared. Lili

I can say that the De Le Roi anti-age cream is miraculous. I wouldn't have even thought about it myself if it hadn't been for the response of people around me who knew nothing about it. My colleague commented that I looked rejuvenated, that I was glowing. After fourteen days of using the cream, my best friend said that a kind of light was radiating from my eyes, my wrinkles had vanished and that I must have definitely had Botox. Nataša
